Summer at the Causeway, 2123

Dear Lake Monona,

Signed,

**LET'S
TRAVEL
IN TIME!**

It's 2123 and you're spending time at the Causeway. What are you experiencing and how do you feel?

DID YOU KNOW?

Along the living green and blue edge, over 5 acres of rain garden space filters stormwater and 1,000 trees planted help to mitigate heat island and sequester carbon. The causeway is now prime fishing territory and watershed improvements have made algal blooms a thing of the past.
