# LET'S TRAVEL IN TIME!

It's 2123 and you're spending time at Monona Hill. What are you experiencing and how do you feel?

### DID YOU KNOW?

*Frank Lloyd Wright saw circles as symbols of infinity. The Hill's graceful bike path arc ties together the city's various formal geometries, and expands, like a ripple on the lake, the circular geometries of the Terrace that were so central to Wright's thesis.*
